## Holiday Let Management and Laundry

At Steam Laundry, we specialise in laundry for holiday lets, serviced accommodation and rentals. We are able to cater for a wide variety of different service levels.

We can either launder only, or provide rental linen and towels for your holiday let. We know what holiday home owners require which is a quality, local and responsive service capable of adapting to different levels of business. By partnering with a family run local cleaning companies we can offer the full level of service.

### **Why Norfolk has seen record numbers of tourists?**

Norfolk is undoubtedly one of the most friendly, beautiful and relaxing places in the UK to enjoy a well-earned break. With stunning coastlines, beautiful villages and historic towns there is something for everyone to enjoy. 2020 has seen the rise of the so called "staycation" with more people preferring to holiday in the UK rather than go abroad. Covid 19 certainly has accelerated this trend, but pre pandemic the trend was still present with tourists realising what this part of the world has to offer.

### **Why are holiday homes in Norfolk a good investment?**

Despite recent tax changes, investing in property is still one of the safest and most reliable form of investment. When you take an average of the property prices even 5 years ago and now, it makes financial sense. Holiday homes in addition to having capital investment also give you a reliable revenue stream especially at peak seasons.

With our management service it is a stress free way of providing an additional income. For more information please do contact us.
